

## A report on world environment day celebrations-2021

World environment day was celebrated on 5th June to raise global awareness to take positive environmental action to protect nature and the planet earth.

It is a day that reminds everyone on the planet to get involved in environment-friendly activities. In our school, we conducted many online activities on that day.

1. We conducted an online quiz program to create awareness about the environment among our students, teachers, and alumni students.
2. Our primary students made some bookmarks to commemorate this day.
3. Our primary students planted many saplings and watered the plants which were already planted.
4. Some students made bird nests.
5. Some special wing students made posters and slogans. Much enthusiasm was seen in the children, and they participated in almost all the activities.
6. Our senior wing children made many videos to motivate the students.
7. Our teachers also participated in the quiz to encourage our students.
8. Our old students also participated in the quiz program to encourage our students.

The event was conducted successfully with the wholehearted participation of our teachers, students, and alumni of our school.
